RESEARCH AND PUBLISHING
The KIT Library offers infrastructures and comprehensive services to support the research and publication process for all scientists at KIT.

- Scientific work: Support of academic education in the form of courses, e-learning offers, and individual consultation.
- Publishing and open access: Publishing and archiving of scientific work in the KITopen Repository and in KIT Scientific Publishing, the publishing house of KIT.
- Publication fund: Consultation, funding, and settlement of open access publication fees.
- Research data: Advice relating to research data management and the supply and archiving of data via KITopen Repository.
- Bibliometry: Publication data from KITopen and referenced databases as well as citation analyses (h-index, impact factor).
- Recording of lectures: Lecturers of KIT can publish their recorded lectures via the DIVA Repository.

The KIT Library supports and advises researchers in procuring literature, conducting searches, and with reference management. On request, literature for seminars and other courses can be put in semester reserve collections located in the reading rooms of the KIT-Bibliothek Süd.

The KIT Library offers all employees of KIT to set up staff collections for longer-term use of research-relevant literature at their workplaces.

OPENING HOURS
KIT-Bibliothek Süd
The KIT-Bibliothek Süd is open 24 hours a day, also on weekends and holidays. The information desk is open from Monday to Friday, 9 am to 7 pm and on Saturdays from 9 am to 12.30 am. During the night, the library rooms are supervised by security guards.

From 7 pm to 9 am and on weekends, the KIT-Bibliothek Süd can be entered with a valid library card only.

KIT-Bibliothek Nord
Monday to Thursday, 8 am to 6.30 pm, Friday: 8 am to 5 pm

THE KIT LIBRARY

The KIT Library provides information resources and services to Karlsruhe Institute of Technology (KIT), Karlsruhe University of Applied Sciences (HsKA), and the Baden-Württemberg Cooperative State University Karlsruhe (DHBW-KA).

The two central libraries, the subject libraries of KIT, and the libraries of HsKA and DHBW-KA have a collection of more than 2 million books, research reports, and over 100,000 journals covering a wide range of disciplines. The focus lies on supplying electronic resources.

The Library supplies more than 36,000 students and nearly 12,000 researchers at the different locations with literature mainly on natural sciences, engineering, and economics.

KIT-BIBLIOTHEK NORD

The central research library on Campus North has a large collection of publications and primary reports on energy and nuclear technologies. All literature is freely accessible. Apart from 50 study spaces, printers, scanners, and copiers as well as individual study pods for individual learning are available.

OTHER LIBRARIES

The Fachbibliothek HsKA (Moltkestraße 30) and the Fachbibliothek DHBW Karlsruhe (Erzbergerstraße 121) are attended to by the KIT Library. Other literature of the KIT Library can be found in the subject libraries for chemistry and physics. Special collections for architecture, computer science, mathematics, and economics can be found in the respective subject libraries on Campus South. Additional study spaces are offered at the Lernzentrum am Fasanenschlösschen.

LIBRARY CARD

All persons living in Germany may be issued a library card for cost-free borrowing of books. KIT members can use the KIT-Card as a library card. The cards of the most important Karlsruhe universities as well as of the Badische Landesbibliothek and the Stadtbibliothek Karlsruhe can be registered as library cards for use at the KIT Library at no costs. External customers are issued a library card for a fee. For registration, they have to provide their identity cards.

LEARNING AND WORKING

The KIT Library and its subject libraries accommodate more than 2,000 study spaces in total. An overview is provided by the "Seatfinder" on the homepage. All study spaces are equipped with a WLAN connection. Usually, printers, scanners, and copiers are available on site. At a number of locations, group study spaces are available, some of which can be booked online. The KIT-Bibliothek Süd has a parent-child room. In addition, the KIT-Bibliothek Süd offers lockers, storage containers, and standing desks. KIT members can borrow photo, video, and audio devices in the media center.

ONLINE SERVICES

Major library services can be used online:
- Searches for books and journals in local, regional, and nationwide online catalogs
- Searches for articles and conference papers in databases
- Access to several ten thousands of electronic books, journals, and online lectures as well as multi-media contents
- Ordering of literature not available in Karlsruhe via interlibrary loan
- For members of KIT, ordering of articles from the major KIT libraries via the LEA electronic article delivery service
- Administration of your library account (account information, account statement, extension of loan periods, book reservations, contact data…)
- Via KITopen, staff and doctoral researchers of KIT can publish and archive their publications and research data.

Please note: To use these services, you will need a KIT account of the Steinbuch Centre for Computing (SCC).

CONSULTATION, COURSES, AND GUIDED TOURS

Courses and Consultation Services

The course and consultation services offered range from coffee lectures and the search for scientific information to reference management instruments to advice relating to publishing at KIT. Detailed information can be found in the calendar of events on the homepage.

Guided Tours

Regularly, in particular at the beginning of the semester, KIT-Bibliothek Süd and Fachbibliothek HsKA offer guided tours. As an alternative, the KIT-Bibliothek Süd offers an audio guide that can be downloaded on the homepage.
