

Article Licensing System – Read & Publish

1. On acceptance of manuscript, authors get an email with a link to the licensing system.

Wednesday, February 3, 2018

Dear Professor Ching-An Peng:

Thank you for choosing to publish with **Physical Chemistry Chemical Physics**, a journal published by the Royal Society of Chemistry

Poly(N-isopropylacrylamide) modified polydopamine as temperature-responsive surface for cultivation and harvest of mesenchymal stem cells

Manuscript ID: **C7CP02336G**

Please submit your Licence to Publish now using the link below so that we can proceed with publication of your manuscript:

<http://licence.rsc.org/start.html>

We are unable to publish your manuscript until a valid licence has been received, so please sign the licence as soon as possible to avoid delays. If you would like to publish your article open access, relevant licence options are also available through the above link. Please contact us if you have any questions.

Yours sincerely,
Physical Chemistry Chemical Physics Editorial Office

3. Author clicks Start now

System automatically identifies the author as being from a Read & Publish institute based on the author email domain

1: START > 2: CHOOSE > 3: SIGN > 4: REVIEW

CHOOSE A PUBLICATION ROUTE

Please select a publication route for your article. You can choose from standard (traditional) publication or gold open access. See our website for more information about [open access](#).

KARLSRUHE INSTITUTE OF TECHNOLOGY (KIT)

Your institution has a Read & Publish open access agreement with the Royal Society of Chemistry, which means that your institution will automatically cover the article processing charge (APC) allowing you to publish your article gold open access.

STANDARD PUBLICATION

Version of record available to institutions with a subscription

Accepted manuscript available after embargo (allows the accepted manuscript to be made green open access via a repository after 12 months)

Author retains copyright

Others have restricted sharing and reuse rights

FREE

No article publication charges

Select our standard licence

GOLD OPEN ACCESS PUBLICATION

Version of record is freely available to everyone

Open access is immediate upon publication (payment of article processing charge may be required before publication)

Author retains copyright

Others can share and reuse

Membership or institutional discounts may apply

FREE

No payment required

Select an open access licence

Select a publication route to continue.

CONTINUE

4. If the author selects standard publication instead of OA, they get a notification that they are not complying with their institute's preferred mode of publication.

Select our standard licence Select an open access licence

You have selected that you don't wish to comply with your institute's preferred mode of publication (provided at no additional cost to yourself through your institute's Read & Publish agreement with us). Please confirm that you wish to continue.

Click the "Continue" button to sign your licence to publish.

CONTINUE

5. If the author selects Gold Open Access Publication, they are given an option of the two creative commons licenses. KIT Library recommends CC BY.

1: START 2: CHOOSE 3: SIGN 4: REVIEW

SIGN YOUR LICENCE ONLINE

We offer a choice of two Creative Commons licences. Creative Commons is a global non-profit organisation, offering free open access licences. Further information is available on the [Creative Commons website](#). You may select the appropriate licence according to your funding body and research institute requirements or your personal choice.

CC BY Creative Commons Attribution	CC BY-NC Creative Commons Attribution Non-Commercial
<p>Under this licence other users are free to:</p> <ul style="list-style-type: none">• copy and redistribute the material• reuse, adapt, and build upon the material for any purpose, even commercially <p>The user must give appropriate credit to the original copyright owner</p>	<p>Under this licence other users are free to:</p> <ul style="list-style-type: none">• copy and redistribute the material• reuse, adapt, and build upon the material but not commercially <p>The user must give appropriate credit to the original copyright owner</p>
<input type="radio"/> Select CC BY	<input type="radio"/> Select CC BY-NC

Select an open access licence. You will then need to agree to the licence terms.

CONTINUE

- Once the author has selected a licence they will be able to view the full terms of the licence and tick to confirm that they accept these terms.
- The author is then presented with a page to review and finish, this page highlights that the Karlsruhe Institute of Technology (KIT) have covered the cost of OA publication under the Read & Publish agreement.
